Portfolio: <https://nisrinekhnfass.github.io/portfolio/>

Final-year Computer Engineering student at ENSICAEN, specializing in cybersecurity and electronic payments, currently on an academic exchange in Japan. Seeking a six-month cybersecurity internship starting in March 2027.

EXPERIENCE — COMPUTING & ENGINEERING

Research Intern — Sungkyunkwan University (SKKU)

Apr. – Aug. 2026

Seoul, South Korea

- Designed and delivered a functional prototype of a system for monitoring household hazards involving children, operating end to end from a surveillance camera video feed
- Built a five-module pipeline (child detection, activity recognition, context analysis, risk assessment, notification) in **Python (PyTorch/TensorFlow)**, with a perception module processing video feeds at **~48 frames/second**
- Achieved **88.7 % accuracy** and **100 % recall on dangerous situations** (no hazards missed across 335 test videos); compared 9 detection models, 3 video recognition models and 6 decision-making configurations (including 4 LLMs)

PROJECTS

Magecart Detection Scanner — Personal Project

2026 – ongoing

- Developing an automated scanner for third-party scripts on e-commerce payment pages in **Python**. **Expected outcome:** identification of web-skimming threats before exploitation
- Implementing a module to support compliance with **PCI DSS 6.4.3 / 11.6.1** requirements (script inventory and tampering detection). **Expected outcome:** an actionable compliance report

Project Lead — Interactive Escape Game — H3P Solution

2026

- Managed and coordinated a team of four using **GitLab** (version control and task tracking) to design an interactive escape game mobile application in **Flutter**
- Developed advanced features: simultaneous management of **multiple teams in real time**, automatically generated map, timer and interactive questions
- Delivered a functional MVP, validated and positively received by the client

Sudoku Assistant — Qt / C++

2026

- Developed a Sudoku-solving assistant using an **MVP architecture**
- Implemented dynamic interface language switching (French / English)

EDUCATION

Shibaura Institute of Technology

Sept. 2026 – Feb. 2027

Tokyo, Japan | Academic exchange semester

- Continuing Computer Engineering studies through an international exchange program

ENSICAEN — National Graduate School of Engineering, Caen

2024 – 2027

Caen, France | Engineering Degree in Software Development, specialization in Cybersecurity

- Coursework: Cybersecurity, Cryptography, Software Security, Security Technologies, Coding Theory, Electronic Payments (ISO7816, EMV, PCI DSS), Software Engineering, Web & Mobile Development, Data Mining & Machine Learning

EM Normandie (dual degree)

2025 – 2027

Caen, France | Master's Degree in Management

- Coursework: Leadership & Management, Marketing, Business Strategy, Finance, Ethics

Preparatory Classes, Lycée Carnot — Honors

2022 – 2024

Dijon, France | Two-year preparation for competitive engineering school entrance examinations (PCSI – PC)

- Algebra, Calculus, Computer Science, Fundamental Physics, Organic and Physical Chemistry

SKILLS

Soft Skills: adaptability, initiative, confident verbal communication, technical curiosity, team coordination

Cybersecurity: cryptography, software security, security technologies, coding theory

Electronic Payments: smart cards (ISO7816, EMV), electronic payment architecture & ecosystem, payment transaction flows, fraud & PCI DSS

Programming Languages: Python, Java, C, C++, JavaScript, Dart, Bash

Frameworks & Libraries: Flutter, React, Node.js, Qt

Databases: PostgreSQL

Data / AI: PyTorch, TensorFlow, computer vision, data mining and machine learning

Tools & Methods: Git, GitLab, GitHub, Linux — SOLID, design patterns, Agile

Languages: French (native), English (fluent, TOEIC 900), Spanish (intermediate), German (beginner)

OTHER PROFESSIONAL EXPERIENCE

Sales Associate — C&A

Aug. 2024 – July 2025

- Independently managed a retail department: restocking, inventory checks, customer advice and assistance

Property Rental Coordinator — Self-employed

2022 – 2024

- Managed apartment rentals, contract tracking, scheduling and administrative tasks

ADDITIONAL INFORMATION

Interests: Entrepreneurship, Travel, Sports, Cooking | **Other:** Driving license (Category B), own vehicle, BAFA (French youth activity leader qualification)
